

# Malibu Stacy, Grasshopper Green

One way or another  
A thousand times at grasshopper green  
Sometime summer  
I never went away from grasshopper green  
One day or another  
A thousand times at grasshopper green  
Sometime summer  
I never went away from grasshopper green

You scrunch it up  
And then aim for the moon  
But you never really know what  
You'll be doin' soon  
Until you're recollecting  
Then you'll always know  
Just what to do  
Because it's all up to you  
Before you crawl, walk tall, you might fall  
Just get up, stand up, then go out and play  
When you give, don't take  
Or you'll sometimes wish you'd never been born at all

One way or another  
A thousand times at grasshopper green  
Sometime summer  
I never went away from grasshopper green  
One day or another  
A thousand times at grasshopper green  
Sometime summer  
I never went away from grasshopper green

You send it up  
To soar through the sky  
But will that dream live on or die ?  
You're never gonna know  
Until you're recollecting  
Until you're reconnecting  
Until the answers stare right into your eyes  
Before you crawl, walk tall, you might fall  
Just get up, stand up, then go out and play  
When you give, don't take  
Or you'll sometimes wish you'd never been born at all

I'm like you  
I want to see through it all  
I'm like you  
I hate to see people fall

Come away to  
This place, it's for you  
For you might want to  
Understand too

I'm just like you  
Down through and through  
Please come away  
To grass-green today

Down at grass-green  
Girls are all keen  
No people mean  
No dead men's shoe

Please take your time

I'll take mine too  
No line is fine  
So get up, stand up and fight before you fall
