

Malibu Stacy, Sex In Malibu

Take my mind to that dream space
We wanna
Get sick of kicks from all those nasty games
We wanna
Where's the harm in some tropical charm ?
We wanna

Everybody put your best suits on
And go down
To sun-kissed beaches where the night is young
We wanna
Take my mind to that dream space
We wanna

But look out
Because they said so
You are my one
You want my love
But you haven't tasted it yet
Yet

It seems that yesterday
We lost a stake in paradise
We cut our love to pieces but couldn't face that we were wrong
And then we've seen the rain
Down through silver clouds
We wake up back for always so sadly

Take my mind to that dream space
We wanna
Get sick of kicks from all those nasty games
We wanna
Where's the harm in some tropical charm ?
We wanna

Everybody put your best suits on
And go down
To sun-kissed beaches where the night is young
We wanna
Take my mind to that dream space
We wanna

But look out
Because they said so
You are my one
You want my love
But you haven't tasted it yet
Because they said so
You are my one
You want my love
But you haven't tasted it yet

Run through my veins
Sex is no shame
Annie better grab your gun, they...
Look so sweet we should have some

Because they said so
You are my one
You want my love
But you haven't tasted it yet
Because they said so
You are my one
You want my love

But you haven't tasted it yet
