

Malibu Stacy, The Fever

Baby you're breaking into my world
And from the grass you blow idle words
And jive talk my freakin'
Oh I know, oh oh oh

It sounds like G's
(Sounds like G's)
Im begging, I'm begging you please
(Beg you please)
Don't mock my freakin'
Oh I know
Oh I know

You wish the sun was all just you
You think you've made it but it's just only you
Suppose you rock my world
Oh I know, oh oh oh

It sounds like G's
(Sounds like G's)
Im begging, I'm begging you please
(Beg you please)
Just learn how to bump it Then you'll know
Then you'll know

You bump it, freak it, dig it, I've got it
Bump it, freak it, dig it, I've got it
Do that my lips want it
Your're the one I love
