

Mammoth WVH, Distance

I am so happy
You've found a place
That's better for you
Than this rock we're livin on
I am so nervous
Don't know my place
A life without you
I'm not ready to move on

No matter what the distance is
I will be with you
No matter what the distance is
You'll be okay

I am so tired
Can't see your face
My memory of you
Slowly fades wjna i go on
I am stil cryin
Don;t want this place
A world wothout you
I don't think i will ever move on

No matter what the distance is
I will be with you
No matter what the distance is
I will be with you
No matter what the distance is
I will be with you
No matter what the distance is
You'll be okay

No matter what the distance is
I will be with you
No matter what the distance is
I will be with you
No matter what the distance is
I will be with you
No matter what the distance is
You'll be okay
