

Man, Life On The Road

So many people leaving
Making for other lands
Guess they stopped believing
Well we've got it planned
Now everyone's got reasons
For what they're going through
But we don't need no city breed
To tell us what to do
Life on the road
Ain't no way home
We're not trying to tell you,
Not trying to sell you,
No cares

Flashing through the country
See a working man
He ain't got no money
Living in a caravan
Does where he wants to
Go what he please
Just a thought, he ain't been caught
He'd rather talk to trees
Life on the road
Ain't no way home
We're not trying to tell you
We're not trying to sell you
No shares

No way home

We're just trying to tell you
Gotta change the world around
Any way you want to go
Ain't no road home
Life on the road
