

Man Meadow, Eaten Alive

Eaten alive

Animal stalking you at night

I'm a sucker for someone

And I got the prey in sight

Lying on a bed of leaves

In the modern times

You forget and let your spirit breathe

Capture me my blood is red

Another victim of your ritual

For you my skin is shed

Ecstasy ain't what you find

In the modern world

One flick of my tongue changes

The meaning of the world

And you say

That's impossible

That's not impossible to do, oh

And you digest what I can see

The taste of you can be

Chorus:

I don't wanna get eaten alive

'Cause you're so dangerous

No more hearts I can trust, you see

I don't wanna get eaten alive

To be eaten alive

Eaten alive

I don't ever wanna be

Eaten alive

Now I got you on the run

And the quicker my senses

And the chance is, I'm the faster one

I know the universal law

Primeval times

With a little stimulation

It'll come once more, and you say

That's impossible

It's not impossible to do, oh

And you digest what I can see

The taste of you can be

[Chorus]

I don't wanna get eaten alive

'Cause you're so dangerous

No more hearts I can trust, you see

I don't wanna get eaten alive

To be eaten alive

Tie me to a tree, crawl all over me

You can rip my shirt, drag me in the dirt

I will be your slave, anything you say

I don't ever wanna be eaten alive
