

Man Meadow, Viva La Musica

Sounds like a melody everytime you speak
My heart is speeding up
Soon it's gonna peek
And all I know
I'll never let you go go go
Come here, stay close to me
Lets dream for a while
Imagine you and me
Flying in the sky
And all we know
We know we're alive
We know we're alive tonight
Viva la musica
I'm singing in the key of love
Viva la musica
I'm so alive, I'm so alive
Viva la musica
I dance to the rhythm of my heart
Viva la musica
I'm so in love, I'm so in love
We're sailing on a cloud
Cloud number nine
It feels like paradise
Love's all around
And all we know
We know we're alive
We know we're alive tonight
Viva la musica...
