

Manafest, Turn it up

My first birthday was 79, my first worse day when daddy he died
Church on Sunday and you know I would hide, momma dragged me I would put up a fight
Lets go back to the day, when the schools would pray, when you were safe, no guns and rage
We played songs from M.J, heal the world and ate great
I got to say hey, things sure have changed, but uh

CHORUS:

SO TURN IT UP AND SING THIS SONG A LITTLE LOUDER
SHOUT IT OUT LIKE YOU GOT THE POWER

Weve only just begun to live

We all need love so let us give

SO TURN IT UP AND SING THIS SONG A LITTLE LOUDER
SHOUT IT OUT LIKE YOU GOT THE POWER

Weve only just begun to live

We all need love so let us give

Verse II

Well I can tell ye what you want love,

But wont like the outcome

Id rather be a falcon flying over mountains

Drowning out the voices still doubting

Shouting out to God for a nation through was founded

People wanna steal, kill destroy, try to fill a void

I wanna bring the joy like playing with toys

Joy still comes in the morning, good morning

Fear still comes to bring torment, torment?

I bet your bottom dollar you can still win tomorrow

And maybe the cup could still be won by Toronto

I heard Jesus Christ was a tough act to follow

And that we all die is a tough pill to swallow

We can say forget it and never go check it

You can write a letter but still never send it

Citizens living in fear come on now

Let this light manifest sing it out loud

CHORUS REPEATS:

Verse III

You can go this way, that way, or that way

U-turn, to learn, we all got a have faith

Mayday were going down, down

No were not man were trying to figure it out

About 2000 and something well all be wondering

Have we moved to Mars, and is the kingdom still coming in

Music is the voice of the people, the mind is a muscle

To fight against evil work it out!!
