

# Mandalay, However Wrong

In the last few days  
You have led me to the line  
To the opening up of the smallest change  
To a smile back to the line  
To the line again

However wrong i feel the same as you  
However wrong it seems  
However wrong you feel the same as i do  
However wrong it seems

It's the same instinct  
as a new day to the sun  
To the opening up of a small step down  
From a thin cloud to the ground  
To the ground again

For the last year all amounts to this  
All of that cloud  
All of those people i'm not, i'm not

What a little tenderness could do  
Bless me, bless you
