

Mandalay, Safer Now

She happened to you
A bright star
A sentient beauty
Ever lost in her light
You kept her denied

Everybody knows it's you
I should leave you alone
I should leave you to be
I should learn to let go
You'll be safer now everybody loves you

Even now
As i sleep now
Am i losing the light
Will i be denied

Everybody knows it's you
I should leave you alone
I should leave you to be
I should learn to let go
You'll be safer now everybody loves you

All my fear
Everybody sees all my fear
Everybody knows it's you...
