

Mandee, Over My Head (ft. Thomas Daniel)

I should have known it come to this
I should have known it
I should have known it
Why did I ever let you in?
I couldn't hold it
Couldn't control it

I thought this was something more for you
something more
But you
Trying all cry out
Did you?

Coz you've got me
I give my heart away
I'm in

....
And I cannot escape

No, I cannot escape
You've got me
On and on
Over my head

So tell me how it's happen now?
When did it started?
Where did your heart beat?
Why all it tumbling down
You left me,
