

Mandragora Scream, Brain Storm

Follow me all over
where you are there is no life
always you the only
oooh you...! can hear me
save my brain
save my death
and now...

Tell me if you now can me fly
you now can cry and give me your light
Now I stay in my creeper...
I remember shadows life
every night they come alive
always you the only one
always you can, only the end...
Now, if you want kiss my stormy brain
do you know where my black rain ends...?
Listen to the roar of the stormy sea
feel how my soul now is frozen breeze
My quiverin' voice bewitched by the wind
now I fell under these green leaves
