

Mandy Barnett, The Whispering Wind

When the whispering wind blows on by
Autumn leaves start to fly
When the whispering wind
Blows on by

What'll I do to keep me warm?
When it comes, winter storm
What'll I do
To keep me warm?

What'll I do when you're away
And the fire is gone, the skies are grey
How I wish that I could make you stay

Please don't go
I need you so

The whispering wind told a lie
Broke your heart, made you cry
'Cause you believed
The whispering wind

What'll I do when you're away
And the fire is gone, the skies are grey
How I wish that I could make you stay

Please don't go
I need you so
