

Mandy Barnett, Who (Who Will It Be)

Who, who will it be?
How will I know?
When will I see?
You light up my dreams
I can't stop wondering who

Who, who will it be?
Who, just like me
Needs someone too?
Love them just like I do
I can't stop wondering who

Can't wait forever for love to come out of the blue
I could hold on and get by if I only knew

Who's longing to find
This heart of mine?
Who could it be?
To help me see my way through
I can't stop wondering who

Can't wait forever for love to come out of the blue
I could hold on and get by if I only knew

Who, who will it be?
How will I know?
When will I see?
You light up my dreams
I can't stop wondering who
I can't stop wondering
