

# Mandy Barnett, Who (Who Will It Be)

Who, who will it be?  
How will I know?  
When will I see?  
You light up my dreams  
I can't stop wondering who

Who, who will it be?  
Who, just like me  
Needs someone too?  
Love them just like I do  
I can't stop wondering who

Can't wait forever for love to come out of the blue  
I could hold on and get by if I only knew

Who's longing to find  
This heart of mine?  
Who could it be?  
To help me see my way through  
I can't stop wondering who

Can't wait forever for love to come out of the blue  
I could hold on and get by if I only knew

Who, who will it be?  
How will I know?  
When will I see?  
You light up my dreams  
I can't stop wondering who  
I can't stop wondering
