Mandy Barnett, Who (Who Will It Be)

Who, who will it be? How will I know? When will I see? You light up my dreams I can't stop wondering who

Who, who will it be? Who, just like me Needs someone too? Love them just like I do I can't stop wondering who

Can't wait forever for love to come out of the blue I could hold on and get by if I only knew

Who's longing to find This heart of mine? Who could it be? To help me see my way through I can't stop wondering who

Can't wait forever for love to come out of the blue I could hold on and get by if I only knew

Who, who will it be? How will I know? When will I see? You light up my dreams I can't stop wondering who I can't stop wondering
