

Mandy Moore, When I Talk To You

Remember me
Feels like forever
Since the days
When we were friends
I don't understand
All these changes
I'm still the same
No need to pretend

Where'd it go..?
Do you know..?
Maybe it just doesn't matter

'Cause when i try to talk to you
I feel like I'm not getting through you
Where did we go wrong
It's hard to be strong
When I talk...
When I talk to you

There were times
In the beginning
When you were there
When I needed you most
We'd sit and talk
About the future
And laugh about
Us getting old

Do you know
How it feels
I hope that you know that it matters

But when i try to talk to you
I feel like I'm not getting through you
Where did we go wrong
It's hard to be strong

When I talk to you
I want you to know everything that I am
Don't want to know what life would be without you

When i try to talk to you
I feel like I'm not getting through you
Where did we go wrong
It's hard to be strong
When I talk...
When I talk to you
