

# Manfred Mann, Earth, The Circle Part 1

Circle who beneath my feet  
Also stand right above my head  
Holding life in your hands so easily  
O Circle you are our lives

Circle you contain the flame  
And hold it deep inside  
You who gave us the air and life we breathe  
Circle you are our time.

Circle you are where we walk  
And you are where we lie  
And the colour we hear  
And sound we see  
O Circle you are our eyes.
