

# Manfred Mann, One Way Glass

Give me a window with one way glass  
To look out on the world and watch people pass  
Give me a window to shield me  
Where I can't be seen, I don't wanna be free

Give me a window to stop the sound  
To keep out the noise of the merry-go-round  
Give me a window with one way glass  
To stop me from questions I might have to ask
