## Manic Street Preachers, Epicentre

We use ourselves like politicians For all the money and indecision - indecision Indecision

Feels like there's no escape Except through my hate Second hand germ warfare Denied oxygen everywhere

Like a stunned fox - with memory loss A sad numb creature - I worship the painkiller It is my epicentre It is my epicentre

Non-existent energy adrenalin my God Still clinging to the umbilical chord - umbilical chord I'm breaking and I'm shaking - so delete the feeling Beneath the real thing - delete the feeling - delete the feeling

Like a stunned fox - with memory loss A sad numb creature - I worship the painkiller It is my epicentre It is my epicentre

I'm sleeping myself away Into the blurred life of yesterday I'm tip-tip-a-tapping tip-tip-a-tapping My nerves are destroyed

Feels like there's no escape Except through my hate Second hand germ warfare Denied oxygen everywhere

Like a stunned fox - with memory loss A sad numb creature - I worship the painkiller This is my epicentre This is my epicentre

You don't drink - you don't get high So make sure you take your medicine boy You don't drink - you don't get high So make sure you take your medicine boy

This is my epicentre
