

Manic Street Preachers, Everything Will Be

Everything is, everything was
Torn between what still makes us carry on
Everything is, everything was
Torn between what still makes us carry on
Everything can mean whatever
Everything can bring us together
So come on baby and comb your hair
You're sleepy and can no longer care

Everything is
Everything was
Everything will fall
Everything is all
Everything is
Everything was
Everything is all
Everything will be
Everything will be

Everything can mean whatever
Everything can bring us together
So come on baby and comb your hair
You're sleepy and can no longer care

Everything is
Everything was
Everything will fall
Everything is all
Everything is
Everything was
Everything is all
Everything will be
Everything will be

Everything is
Everything was
Everything is all
Everything will be

Everything is
Everything was
Everything is all
Everything will be
Everything will be
Everything will be
