

# Manic Street Preachers, Further Away

The further away I get from you  
The harder it gets for everyone else, for everyone else

The happier I am when I'm with you  
The harder it gets when I am alone, when I am alone

The harder I try to learn something from you  
Further away

Further away feel it fade into your childhood further away  
Further away feel dazed and misunderstood  
Further away

The stiller the oxygen the harder you breathe  
The draining away just like an old man's dream  
Just like an old man's dream

The simpler the answer the harder it can get  
The circular landscape comes back only with regret  
Only with regret

The more estranged I feel from my youth further away

Further away feel it fade into your childhood further away  
Further away feel dazed and misunderstood  
Further away

Further away feel it fade into your childhood further away  
Further away feel dazed and misunderstood  
Further away  
Further away  
Further away  
Further away
