

Manic Street Preachers, Happy Ending

We've had our share of glory
We've had our day in the sun
Oh this could be, oh this could be

We've reached the stars and garden
Fell from grace and asked for more
Oh this could be, oh this could be

This could be a happy ending
This could be a happy ending

We made more enemies than friends
Maybe too many to count
Oh this could be, oh this could be

We've looked so old and beautiful
Fought the rain, sleet and snow
Oh this could be, oh this could be

This could be a happy ending
This could be a happy ending
This could be a happy ending
This could be a happy ending

This will be a new beginning
This will be a time for changing
This will be neverending
This will be a happy ending
