

# Manic Street Preachers, Nobody Loved You

What's your story baby  
No control of what I am saying  
Winter leaves still make me believe  
No vendettas, just a cherry blossom tree

Never had the chance to take you home  
Now there's no reason just another tomorrow  
You keep giving me your free airmiles  
What would I give just for one of your smiles  
Just for one of your smiles

Nobody loved you - nobody made you feel so alone  
Nobody loved you - no no  
Nobody loved you - nobody made you feel so alone  
Nobody loved you - no no

Let me turn down all these lights  
And sit with me then you can hold me tight  
Give me some more of your carrier bags  
And let me dream of a new autumn light

Tell me your story baby  
What's your poison and what is your honey  
You've stopped me hurting but so much disorder  
Winter flowers did you ever forgive her  
Did you ever forgive her

Nobody loved you - nobody made you feel so alone  
Nobody loved you - no no

Cherry blossom tree - but at least you are free  
Nobody loved you - like me

It's unreal now you're gone - but at least you belong  
Nobody loved you - no - no

What's your story baby  
No control of what I am saying  
Winter leaves still make me believe  
No vendettas, just a cherry blossom tree  
Just a cherry blossom tree
