

# Manowar, Black Wind, Fire And Steel

Fool moon's light is calling me  
My kingdom lies within  
The mystic soul and lion's heart  
Brought by the talisman.  
The ecstasy of battle takes me  
Where the falcons fly.  
Immortal youth was granted me  
I will never die.

Born of Black Wind, Fire and Steel  
Born of Black Wind, Fire and Steel  
Born to teach them all to heel  
Black Wind, Fire and Steel.

Pounded by the hammers  
Of the giants of the world.  
I can see in darkness,  
I'm the overlord  
Single combat I await  
My shadow brings them fear.  
The spikes upon my chariot  
Will grind them when they're near.

Born of Black Wind, Fire and Steel  
Born of Black Wind, Fire and Steel  
Born to teach them all to heel  
Black Wind, Fire and Steel.

I am an outcast  
On the path of no return.  
Punisher and swordsman  
I was born to burn.  
Black Wind always follows  
Where my black horse rides.  
Fire's in my soul  
Steel is on my side.

Born of Black Wind, Fire and Steel
