

# Manowar, Holy War

I have seen the fire  
Of the thousands suns pass by  
While blasphemers spread their Gospel  
Bearing false witness  
Now we rise  
All ye children of the wild  
Fists like hammers fill the air  
Vast legions all immortal  
Smash the stillness everywhere

Holy, Holy War

Holy  
We are fighting, fighting a Holy War  
Holy War  
See us fly on winds of doom  
Holy War  
Baptized in Fire and Steel  
Holy War  
For the end we bring is soon  
Holy War  
Now face the storm  
A Holy War

Brothers of metal know no masters  
Metal's our religion  
Take it to the grave  
Rulers of the earth  
Our dawn of glory  
All reborn we live again  
Hold true, ye sacred army  
Our last battle is at hand  
Sweep this dogs from our kingdom  
Bless this ground, our holy land

Holy, Holy War

Holy  
We are fighting, fighting a Holy War  
Holy War  
See us fly on winds of doom  
Holy War  
Baptized in Fire and Steel  
Holy War  
For the end we bring is soon  
Holy War  
Now face the storm  
A Holy War
