

Manowar, Manowar

(R. Friedman/J. DeMaio)

We met on English ground
In a backstage room
We heard the sound
And we all knew
What we had to do

We called the high command
Questedly to make a stand
And in the field we grew
And we all knew

Soon the time would come
For us to fight,
Destination
Now in sight

Aaah, Manowar
Born to live forever more
The right to conquer every shore
Hold your ground and give no more

Our fight will never end
So we called your party sense
To raise your hands
And take our stand

Look sharp
When duty calls
Where we march
Cities fall
And the strong survive
And take our side

Now the time has come
For us to fight
Target waiting
In our sight

Aaah, Manowar
Born to live forever more
The right to conquer every shore
Hold your ground and give no more

Manowar
Born to live forever more
The right to conquer every shore
Manowar
Born to live forever more
Manowar
Born to live forever more
The right to conquer every shore
Hold your ground and give no more
Born to live forever more
The right to conquer every shore
Manowar
