

Manox, Love can't escape

All I feel is pain
Then now
Falling in and
Coming down lets try
Somehow
It's not gonna slip away
And I know finally say
That you want just walk away
Can't you see love can't escape the feeling
Don't you know I can't help what I feel to set you free
Can't you see I can't escape the feeling
Somehow i found the key to you
Love cant escape
It's gonna do
To change
Missing you when holding you
Can't lie to myself
I've had this chance, its true
Girl it's hard to finally say
That you want just walk away
Can't you see love can't escape the feeling
Don't you know I can't help what I feel to set you free
Can't you see I can't escape the feeling
Somehow I found the key to you
