

# Mans Zelmerlow, Find love

Trying hard to make it through the day  
I wish we could be okay, okay yeah.  
I hope this feeling fades away  
I can't hide it.  
I told you we would find a way  
I lied and said it's okay, okay yeah.  
Pretending every night and die  
We will find it.  
Whatever will be  
You will find love  
But not with me  
I told you  
Wherever you'll be  
You will find love  
Just wait and see.  
You will find love...  
Can't believe what I put you through  
You used to be my perfect work of art.  
But I know now what I never know  
Can't deny it.  
Whatever will be  
You will find love  
But not with me  
I told you  
Wherever you'll be  
You will find love  
Just wait and see.  
You will find love...  
Now it's over, it's said and done  
But you will find love.  
Now it's over, it's said and done.  
But you will find love.  
Whatever will be  
You will find love  
But not with me  
I told you  
Wherever you'll be  
You will find love  
Just wait and see.  
You will find love...
