

Mans Zelmerlow, Forever

I never meant to do you wrong
To break what used to be so strong
I lived my life with me, myself and I
Forgot what was right
Love will last forever
You and me together
Climb every mountain
Cross every ocean deep
Love will last forever
You and me together
Inside of my heart
I found you in the daylight
And kissed you in the moonlight
And the stars had formed a smile across the sky
Live will last forever
You and me together
Forever I'm yours
My weakness tore our love apart
I caused us both a broken heart
I'd give my life to have you here with me
Can't you forgive me
