

Mans Zelmerlow, One minute more

Never thought I'd feel this way
Now that time has run away
Baby can't you just forgive me
I know I was hard on you
All the things I put you through
Left in middle of something good
I just want one minute more
Just want one minute more
I just want one minute more
With you
Life is hard when you're not here with me
Just give me time, one last try
I just want one minute more
Just want one minute more
I just want one minute more
Of love
Closing in on open skies
Peering down into those eyes
That's when you said goodbye
How can I sleep tonight
When all I want is to see the light
I was so close and now it's gone
I just want one minute more
Just want one minute more
I just want one minute more
With you
Life is hard when you're not here with me
Just give me time, one last try
I just want one minute more
Just want one minute more
I just want one minute more
Of love
I just want one minute more
Don't you walk out that door
I just want one minute more
