

# Mansun, I Deserve What I Get

I'm not getting sleep at night  
My insomnia's a pain  
Problems I create myself  
I drag here from the day  
Harsh words I keep them to myself  
Hearing my problems serves to destroy  
I'm a case for us all

Deserving what I get (I deserve what I get)  
Deserving what I get

There's such joy in wasting time  
An achievement not at all  
My destructive side again  
I'm please with what I've done
