

Marc Bolan, Weilder Of Words

Wielder of words is steeped within traditional verbs
and curiously a dented top hat
discovered in the moonlit Laundromat

A busted cheroot is smoking on the heel of his boot
His opera is torn thru' the haste of operatic oyster
eating evenings of waste

Sleek astrakhan, reclining on a chippendale stand
so sad they should be owning a man who's
thicker than the forestry from where they began.
