

# Marc Nelson, In The Dark

In The Dark....

(repeat)

In The Dark....

In The Dark....

In The Dark....

How can I say what's on my mind

I'll try to find the words this time

I don't wanna be there alone

Cause you make my house a happy home

Loving you is what I need

baby, just to make my life complete

you're the one that sees my heart

all through the day, baby

and in the dark

Chorus

In the dark

It's the night calling out of passion

I hear the horns

Playing the music to the groove

In the dark

As your body and mine are sweating

I see stars

Baby, lighting the dark

I'm caught up in this web of time

cause you're the only thing that's on

my mind

It's driving me insane

That's I love you girl, this way, lady

cause I was made to please you

made to tease you

what would I do without

I don't want to know

please don't ever let me go

Chorus
