

Marc Terenzi, Forever we always be

Forever
Forever
I've been down
This dusty road about a thousand times
And I don't feel like anyone can see me anymore
It's always on my mind the way I used to be
I'm just a shell of a man
It's cold in my hands
What's happening to me
I feel like all the shadows are catching up with me
And maybe when I'm gone
From everything I've known
I'll finally break free
I'm living on the edge of what life wants me to be
Although I walk alone
On the streets I've always known
If there is life after death
Forever
Will always be
So I turned and walked away down that open road
To try to find a way to end this
Curse I've known
Maybe in a better life I can finally be me
The perfect kind of man
With his life in his hands
What's meant will always be
I feel like all the shadows are catching up with me
And maybe when I'm gone
From everything I've known
I'll finally break free
I'm living on the edge of what life wants me to be
Although I walk alone
On the streets I've always known
If there is life after death
Forever
Will always be
I feel like all the shadows are catching up with me
And maybe when I'm gone
From everything I've known
I'll finally break free
I'm living on the edge of what life wants me to be
Although I walk alone
On the streets I've always known
If there is life after death
Forever
