

# Marcel, I Won't Hold You Down

If I were to walk a hundred miles  
If I were a stranger from another land  
What would you say, what would you do  
Would you lend me your hand?

Though I try to make you smile  
At times I bring you no harmony  
From where I stand, my point of view  
I just want you to be happy

Chorus:

I won't hold you down  
I won't hold you down  
I will let you go, I won't pull you back  
I think you know me better than that  
I won't hold you down

I know I'm away most of the time  
And I'm sorry for the price you've paid  
If you must go, I'll understand  
Please believe me when I say

Chorus:

I won't hold you down  
I won't hold you down  
I will let you go, I won't pull you back  
I think you know me better than that  
I won't hold you down

How you feel, and the road you choose  
I hope that you succeed  
But I thank you for the time we shared  
And I'm sorry that you have to leave

Chorus:

I won't hold you down  
I won't hold you down  
I will let you go, I won't pull you back  
I think you know me better than that  
I won't hold you down
