

# Marcy Playground, Get it darling

I started out walking outta there, that place was only bad news. Guess I'm right when I say  
I need new walking shoes, cause the soles they are worn, from all the miles before. And I stop.  
Three seconds later stutter step to your door.

She says you're alright, you've got a place in my heart is achin'

For your touch, your touch and God I'm wishin', your intuition is so with mine.

Whoa Let's Go

That's right I said it c'mon I know you get it darlin'

Whoa You Know,

I am the fever you want and everybodies got it!

It's right here, it's right now. The room is spinnin' and oh still trying to fit in and dot these

i's it's no surprise when we get it right, we get it right!

Maybe we got it baby, we'll leave the city. I think we're ready for a new sky and a new life.

C'mon the plane is leaving it's time, it's time to get it right!

Whoa Let's Go

That's right I said it c'mon I know you get it darlin'

Whoa You Know,

I am the fever you want and everybodies got it!

We gotta get it, oh, we gotta get it right!

We gotta get it, oh, we gotta get it right!
