

Marduk, Dark Endless

Darkness is complete
Oh so it burns
Dark endless forests
Has poisoned my blood
Overshadowed by ancient evil
My bones are black from sadness
My soul is cold as ice
I will dwell in hell
Dark endless forests
From another age
Darkness it shall be
Not a sign of light
No heaven so bright
But hell burned a light
Souls screaming out loud
Let us fucking die
Dark endless forests
From another age
Darkness it shall be
Not a sign of light
Blackened stars fall from the sky
To rule again in satan's empire
Father - I'm your seed
Forever you I will feed
