

# Marduk, The Sun Turns Black As Night

On my knees i pray for the darkest day  
And I will be the one to go your way  
Earth is filled with sorrow that will soon be unleashed  
Powers of the Dark see their reign increase  
Take my body and soul  
Into the Dark  
Sorrow I salute you  
Pain my biggest joy  
Death to those who fail me  
Death I shall employ  
Blood for the king  
Murder we sing  
Bring us from the light  
To the temple of burning night
