

Margaret, Click (piosenka z reklamy Deichmann)

Here I am lady I'm gonna shed some light
If you're looking for Mr. Right
Then listen and you listen it good alright
Getting old waiting for guys that never show
It's time for you to take control
Coz history's an open door, let's fight

Click turn me on, click turn me off

A beauty and the beast, you know they lie
And all the fairy tales and the lullabies
But they can click turn me on, click turn me off,
Click turn me on, click turn me off
A beauty should believe and do what's right
Get out from her crib in utopia
But they can click turn me on, click turn me off
Click turn me on, click turn me off

Some may say: "What the hey, why you being mean?"
Girls they should keep it clean,
And act like they're blushing teens, that's right
Sorry but, what is up, this ain't 1912
We're doin' it for ourselves
It's time to do what is right
Sit tight

Click turn me on, click turn me off
Click turn me on, click turn me off

A beauty and the beast, you know they lie
And all the fairy tales and the lullabies
But they can click turn me on, click turn me off,
Click turn me on, click turn me off
A beauty should believe and do what's right
Get out from her crib in utopia
But they can click turn me on, click turn me off
Click turn me on, click turn me off

You can turn me on, you can turn me off /2x
Click turn me on, click turn me off /2x
/2x

And no more waiting in your best shoes
And no more crying in a bathroom
No more blaming yourself
It's time for you to make your own rules

A beauty and the beast, you know they lie
And all the fairy tales and the lullabies
But they can click turn me on, click turn me off,
Click turn me on, click turn me off
A beauty should believe and do what's right
Get out from her crib in utopia
But they can click turn me on, click turn me off
Click turn me on, click turn me off
