

Margaret, Elephant

You're such a douchebag coming in here
Mess up all my space
Put down your hashtag
Killing my zen, now it's like a hate
You make me go, so
Jangling in my head
I wanna scream You leave
But it's there
You go!

You're my elephant in the room
Gotta let it out
We assume
'Cause you're my elephant
Not irrelevant
My elephant in the room
You're my elephant in the room
Real and not ...
His hesitate
But it's My elephant in the room

Dark ... and dig this way
To big, creaking in my room
You're Mr. Dumbo Gross
When I don't show
What is really true, no!
I can't think, dialog
I can't get no sleep
I wanna scream
You leave,
But it's here
You go! /4x

You grow x3

You're my elephant in the room
Gotta let it out
We assume
'Cause you're my elephant
Not irrelevant
My elephant in the room
You're my elephant in the room
Real and not ...
His hesitate
But it's My elephant in the room
