

# Maria, Coffee In Bed

I thought you know mw well enough that you could tell  
That just one thing will do when I'm in this mood  
And what I'm craving is, you flavor on my lips  
So won't you fill me up, 'cause I've waited for this

All day long it's on my mind  
There's no way to unwind  
Until I get back home, and you put it on

I like my coffee in bed  
It only takes one sip to go to my head  
I never have to say no sugar or cream, baby  
'Cause you know what I need, my black coffee

Now if I seem selfish, it's 'cause I can't resist  
Even though I've tried, I still crave I crave that high  
And yeah, it's obvious that I can't get enough  
So if you serve it hot, I'll say when to stop

Baby, you're getting so close I can't taste it  
I don't want a drop to be wasted  
So just slow down and take your time  
'Cause you know what I like
