

Maria Mena, Come In Over Me

You'll get the urge to push me down
Only to learn I resurface
I am the place where you feel safe and sound
But I am gonna make you scream
I am gonna crush your dreams
Maybe you're on to my conspiracy
But baby you fail to learn the details
You like the fact that I am hard to read
I am gonna hurt you bad and
Give you love you've never had
Baby, try to leave me I will hunt you down and you know that
Baby, try to love me I will make you hurt
Come in over me
come in over me
