

Maria Mena, Sleep To Dream

You have it all
the ceiling cracks and you fly
but I fall again.

Please say goodbye
take your love out of me
and don't ask me why.

I'm not your friend
trying to stand but you bend me again.
What's up with that?
Takes more than this for me to take off my hat.

And I said it first
between you and me
I sleep to dream
I sleep to dream

Sorry you kissed me now
this face doesn't seem so brave after all
Please, let me go
I need to hear myself think
I only hear water flow.

I'm not your friend
trying to stand but you bend me again.
What's up with that?
Takes more than this for me to take off my hat.

And I said it first
between you and me
I sleep to dream
I sleep to dream

I'm not your friend
trying to stand but you bend me again.
What's up with that?

Takes more than this for me to take off my hat.
Takes more than this for me to take off my hat.
Takes more than this for me to take off my hat.

And I said it first
between you and me
I sleep to dream
I sleep to dream

And I said it first
between you and me
