

Marianne Faithfull, The Stars Line Up

The stars line up
The stars line up for me tonight
The stars line up
The stars line up tonight to see
To see who we are, baby,
And write our names
High up inside the sky.

The stars line up
The stars line up for me tonight
The stars line up
The stars line up tonight to see
To see what we know, baby,
And write our names
High up inside the sky.

I lined them up for you
The time is clear

What else is there to do?

The stars line up
The stars line up for us tonight
The stars line up
The stars line up tonight to see
To see who we are, baby.
Let's write our names
High up inside the sky.

I hope you know
I hope you know the way I feel
I want you so.

I hope you know the way I feel
I feel about you, baby.
Let's write our names
High up inside the sky.
