

# Marillion, Afraid Of Sunlight

(Hogarth/Helmer/Kelly/Mosley/Rothery/Trewavas)

Drive the road to your surrender  
Time comes around... out of my hands  
Small boats on the beach at the dead of night  
Come and go before first light  
Leave me running in the wheel  
King of the world  
How do you feel?  
What is there to feel?

So how do we now come to be  
Afraid of sunlight?  
Tell me girl why you and me  
Scared of sunlight?

Been in pain for so long  
I can't even say what hurts anymore  
I will leave you alone  
I will deny  
I will leave you to bleed  
I will leave you with your life

So how do we now come to be  
Afraid of sunlight?  
Tell me girl why you and me  
Scared of sunlight?

All your spirit rack abuses  
Come to haunt you back by day  
All your Byzantine excuses  
Given time, given you away

Don't be surprised when daylight comes  
To find that memory prick your thumbs  
You'll tell them where we run to hide  
I'm already dead  
It's a matter of time

So how do we now come to be  
Afraid of sunlight  
How do we now come to be  
Afraid of sunlight

Day-Glo Jesus on the dash  
Chalk marks on the road ahead  
Friendly fire in hostile waters  
Keep the faith  
Don't lose your head

So how do we now come to be?
