

# Marilyn Manson, Devil In My Lunchbox

when you wish upon a star  
don't let yourself fall, fall in too hard  
I fell into you and I'm on my back  
an insect decaying in your little trap  
I squirm into you, now I'm in your gut  
I fell into you, now I'm in a rut  
"I lift you up like the sweetest angel,  
I'll tear you down like a whore.  
I will bury your god in my warm spit,  
you'll be deformed in your porn"  
rock star, you're such a dirty, dirty  
rock star, yeah  
you eat up my heart and all the little parts  
your star is so sharp  
it leaves me jagged holes  
I make myself sick just to poison you  
if I can't have you then no one will  
you are the one I want and what I want is so unreal  
i'm such a dirty Rock star yeah...  
I am the one you want and the one you want is so unreal
