

Marilyn Manson, Devour

Ill swallow up all of you
like a big bottle of big, big pills
Youre the one that I should never take
but I cant sleep until I devour you.
I cant sleep until I devour you.
Youre a flower thats withering.
I cant feel your thorns in my hand.
This is no embrace, your buried deep
Youre not crying, this is blood all over me
and Ill love you, if you let me
and Ill love you, if you wont make me stop
I used to hold your haunted neck.
I know Ill miss you if I close my eyes
but this is loaded if I open them
Ill see you and Ill blow your heart to pieces
I will blow your heart to pieces
I will blow your heart to pieces
I will blow your heart to pieces
and Ill love you, if you let me
and Ill love you, if you wont make me stop
My pain is not ashamed to repeat itself
I cant sleep until I devour you
and Ill love you, if you let me
and Ill love you, if you wont make me stop.
