

# MARINA, Orange Trees

orange /4x

I can see the flowers and the greenery  
I take a breath of air, I feel free  
Spent so long, was busy chasing happiness  
When all I needed was a little peace

try to get back to what we need  
living like we're supposed to be

Flowers in my hair  
I belong by the sea  
Where we used to be...  
Sitting by the orange trees.  
summer in the air  
bodies in the heat  
just you and me  
sitting by the orange trees

so far away  
far from neon lights and city streets  
this is where I used to dream  
been around the world  
but I could never replicate  
the feeling that I get beneath my feet

try to get back to what we need  
living like we're supposed to be

Flowers in my hair  
I belong by the sea  
Where we used to be...  
Sitting by the orange trees.  
summer in the air  
bodies in the heat  
just you and me  
sitting by the orange trees

watch the sun go down into the sea  
wrap your love around me  
life is beautiful and now you see  
this is how it feels to be free

Flowers in my hair  
I belong by the sea  
Where we used to be...  
Sitting by the orange trees.  
summer in the air  
bodies in the heat  
just you and me  
sitting by the orange trees
