MARINA, Orange Trees

orange /4x

I can see the flowers and the greenery I take a breath of air, I feel free Spent so long, was busy chasing happiness When all I needed was a little peace

try to get back to what we need living like we're supposed to be

Flowers in my hair I belong by the sea Where we used to be... Sitting by the orange trees. summer in the air bodies in the heat just you and me sitting by the orange trees

orange /4x

so far away
far from neon lights and city streets
this is where I used to dream
been around the world
but I could never relicate
the feeling that I get beneath my feet

try to get back to what we need living like we're supposed to be

Flowers in my hair
I belong by the sea
Where we used to be...
Sitting by the orange trees.
summer in the air
bodies in the heat
just you and me
sitting by the orange trees

orange /4x

watch the sun go down into the sea wrap your love around me life is beautiful and now you see this is how it feels to be free

Flowers in my hair
I belong by the sea
Where we used to be...
Sitting by the orange trees.
summer in the air
bodies in the heat
just you and me
sitting by the orange trees
